

Patient Medical Report

Generated on: 2026-03-29 20:43:44

I want to start by reassuring you that we're going to get through this together. I know it can be overwhelming when

The doctor has diagnosed a type of skin cancer called melanoma. Melanoma is a serious condition, but with the

Imagine your skin as a canvas, and moles are like tiny paintings on it. Sometimes, these moles can change shape

The doctor wants to make sure that the mole isn't cancerous, so they've taken a sample of it for further testing. T

Now, I want to explain what melanoma means in simple terms. It's a type of skin cancer that can spread to other

The doctor has mentioned some specific types of melanoma, like superficial spreading melanoma (SSM) and no

Now, let's talk about what you can do to take care of yourself during this time. We'll need to schedule some follow

- * Make sure to wear sunscreen with a high SPF every day, even on cloudy days.
- * Wear protective clothing when you're outdoors, especially if you have a history of skin cancer.
- * Check your moles regularly for any changes in shape or color.
- * Don't hesitate to reach out to us if you notice anything unusual.

Remember, this is not a final diagnosis. We'll continue to work together to find the best treatment plan for you. Y

One more thing – I want to reassure you that our team is committed to providing you with the highest level of car

Is there anything specific you'd like to know or any questions you have about your diagnosis?
